

Good Governance and Anti-Corruption

The Good Governance and Anti-Corruption Cluster shall promote transparency, accountability, participatory governance, and strengthening of public institutions. It shall also work to regain the trust and confidence of the public in government. In particular, the following goals shall be pursued:

- a. Upholding transparency in government transactions and our commitment to combating graft and corruption.
- b. Strengthening of the capacity of government institutions to link their respective budgets with performance outcomes and enabling citizens and civil society to monitor and evaluate these;
- c. A professional, motivated and energized bureaucracy with adequate means to perform their public service missions;
- d. Improvement of public sector asset and resource management and revenue performance; and
- e. Establishing an improved policy and regulatory environment that will reduce the cost of doing business in the country and improve competition.

Human Development and Poverty Reduction

The Human Development and Poverty Reduction Cluster shall focus on improving the overall quality of life of the Filipino and translating the gains of good governance into direct, immediate, and substantial benefits that will empower the poor and marginalized segments of society. In particular, the cluster shall pursue the following goals:

- a. Making education the central strategy for investing in our people, reducing poverty and building national competitiveness;
- b. Recognizing the importance of advancing and protecting public health;
- c. Building of the capacities and creation of opportunities among the poor and the marginalized;
- d. Increasing social protection and engaging communities in their own development;
- e. Promotion of equal gender opportunities in all spheres of public policies and programs; and
- f. Ensuring effective coordination of national government programs for poverty reduction at the local level.

Climate Change Adaptation and Mitigation

The Climate Change Adaptation and Mitigation Cluster shall focus on the conservation, and protection of the environment and natural resources. It shall take the lead in pursuing measures to adapt to and mitigate the effects of climate change on the Philippine archipelago; and undertake all the necessary preparation for both natural and man-made disasters.

The cluster shall pursue the following objectives in particular:

- a. Adopting climate change adaptation and mitigation measures by local government units and their respective communities, national government agencies, and the general public; and ensure that these are incorporated in their annual work plans and budgets, where applicable;
- b. Ensuring the utilization of natural resources for the equal benefit of the present and future generations;
- c. Formulating alternative and inclusive urban development plans, which ensure that people of varying income levels are integrated in productive, healthy and safe communities; and
- d. Undertaking all other measures necessary to prepare for and manage the risks and/or threats associated with natural and man-made phenomena such as, but not limited to, typhoons, earthquakes, tsunamis, floods, landslides, civil disturbance and terrorism.
